Risk Factors

Busch Wildlife Sanctuary's summer program is ideal for children interested in learning about Florida's wildlife and natural environments. Part of the activities will allow participants to be directly involved in the care of live wild animals and exploring the outdoors. The experience can be very fun and rewarding. Even though many safety precautions exist, there is always potential to be injured, bitten or scratched when working with live animals and exploring nature. It is important that you understand and accept these risks before registering your child for this summer program. It is also important that you and your child understand that appropriate behavior is required at all times.

Waiver and Release

I accept all risks inherent to the summer education programs at the Busch Wildlife Sanctuary, including the additional risks that exist when working with or around wild animals and exploring the outdoors, and do hereby release the Busch Wildlife Sanctuary, The Loxahatchee River Environmental Control District, as well as their directors, officers, agents, employees, and members from all liability for injury during the summer program activities. It is further understood that the Sanctuary is not responsible for the loss of personal property, and I understand that I must pick up my child no later than 4:15 pm on each day. If I am late, I agree to pay \$1.00 per minute for each minute I am late. I understand that my child is expected to maintain appropriate behavior. If my child is having difficulty in this area, I understand that I will be notified and may be asked to remove my child from the summer program.

I have read the risk factors listed above and this waiver, and fully understand its contents. I am aware that this is a release of liability and have signed it of my own free will.
